

ALL-NEW HD BIKE CAMERA + REAR LIGHT

THE DASHCAM ENGINEERED FOR CYCLISTS

SAFER. SMARTER. SHARPER. SMALLER.

Cycliq's new Fly6 CE integrated rear-facing bike camera and safety light has been re-engineered to give cyclists super-sharp video recording, a more powerful light and impressive battery life. It's also, smaller and lighter than previous models - and packed with new features including our all-new quick-release mounting.

The new Fly6 CE features will appeal to a wider range of cyclists than before. Designed for competitive cyclists, commuters, mountain bikers and those who simply ride for fun, the new mounting solutions mean the cameras will fit onto more types of bikes.

- FULL 1080p HD CAMERA + AUDIO
- BRIGHT 100-LUMEN REAR SAFETY LIGHT
- MASSIVE 7 HR RUN TIME
- SMART LOOPING VIDEO
- INTEGRATED BIKE ALARM
- BLACK BOX INCIDENT PROTECTION
- ALL-NEW 1/8 QUICK-RELEASE MOUNTING
- STRAVA INTEGRATION
- 6-AXIS IMAGE STABILISATION
- SMARTPHONE APP CONNECTIVITY
- CONTROL VIA ANT+
- WATER RESISTANT
- WEATHER AND DUST PROOF
- HOME-SAFE MODE
- USB-C FAST CHARGE
- SIMPLE TWO-BUTTON OPERATION

FLY6 CE601

HD BIKE CAMERA + REAR LIGHT
THE SAFETY DASHCAM
FOR CYCLISTS

Smart technology that's simple to use.

There's a lot of technology packed into the new Fly6 CE, but it's all controlled by just two buttons. While the Fly6 CE keeps its eyes and ears on the road, cyclists can relax and enjoy the ride.

CAMERA

Full HD camera with audio.

Shoot super-sharp video at up to 60 frames per second in 1920 x 1080p resolution with audio. The ultra-wide 135° viewing angle and 6-axis image stabilisation captures action footage, number plates and incidents with amazing clarity.

LIGHT

Super-bright rear light.

The 100-lumen light lets the rider clearly be seen day or night. There are three light modes and three dimming options, or it can operate with camera only.

BATTERY

Massive battery power.

With up to 7 hours operating time, our industry-leading battery will last longer than most rides. A full recharge only takes 2 hours.

SAFETY + SECURITY

Be safe. Be secure.

Smart video looping means never running out of storage space on the microSD card. And if the Fly6 CE detects the rider has been involved in an incident, it automatically locks and preserves the footage.

The in-built alarm alerts the rider's smartphone - via the CyliqPlus app - the moment their bike is moved. For extra security, the light flashes and the camera captures everything on video, even the thief.

When the battery runs low, we still get cyclists home safely. The camera automatically turns off giving the light enough battery power for another 30 minutes.

MOUNTING + ACCESSORIES

Quick and easy.

The new quick-release system lets cyclists attach or remove the Fly6 CE with a simple 1/8th of a turn. Our accessory range now includes the Telescopic Mount which attaches to the seat rails so there's no need to move the saddle bag or tool kit.

POCKET SIZE

Small, sleek and tough.

The pocket-sized Fly6 CE weighs in at just 110g (3.88 oz) but don't let its size fool you. We've built it tough to withstand knocks, and the nanotechnology weather and dust protection makes it suitable for use in all conditions.

QUICK-RELEASE MOUNT

CONNECTIVITY

Ride. Record. Edit. Share.

Fly6 CE connects via ANT+ to compatible Garmin bike computers to remotely control the camera and lights.

The camera connects with the CycliqPlus mobile app through Bluetooth; and to Macs or PCs with USB. The free CycliqPlus Desktop software lets you edit footage for social sharing.
